

Chapter 1

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 1: Introduction to Artificial Intelligence (AI)

This worksheet is designed for high school students (Class 9-12) as part of the course "AI & Future Work Preparedness." It provides a brief and simple way to review key concepts from Chapter 1 through a mix of activities and reflection. It's perfect for classroom use or self-study.

Part 1: True or False Challenge

Read each statement below and mark whether it is **True** or **False**. If False, write a short correction (1 sentence).

- **AI is a branch of computer science where machines learn from data to make decisions.** ☐ True ☐ False
Correction (if False): _____
- **The term "Artificial Intelligence" was first coined in 1997.** ☐ True ☐ False Correction (if False):

- **AI is only used in video games and has no other applications.** ☐ True ☐ False Correction (if False):

- **A common myth is that AI will take over the world and control humans.** ☐ True ☐ False Correction (if False): _____
- **There are no ethical concerns related to AI because it is always fair.** ☐ True ☐ False Correction (if False):

Part 2: Hands-On Activity (Pattern Recognition)

AI often learns by recognizing patterns. Let's think like an AI!

- Grab 5 objects from around you (e.g., pen, book, phone).
- Sort them into 2 groups based on a rule (e.g., "things I use daily" vs. "things I don't").
- Write your rule below and list the objects in each group.

My Rule: _____ **Group 1:** _____ **Group 2:** _____

Question: How does this activity relate to how AI works?

Part 3: Reflection (Personal Thinking)

Answer this question in 2-3 sentences. **If you could create an AI tool to help teens, what would it do? Why?**

Part 4: Bonus Challenge (Optional)

Spot AI in your day! Over the next 24 hours, write down 3 things you use that might have AI (e.g., phone apps, games). Bring your list to class or share with a friend.
