

Chapter 4

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 4: Digital Literacy and Technology Skills

This worksheet is designed for high school students (Class 9-12) as part of the course "AI & Future Work Preparedness." It aligns with Chapter 4 content, covering key areas such as navigating the digital world, data privacy and cybersecurity, productivity tools, cloud computing, and social media for personal branding. The worksheet includes a mix of activities to reinforce learning and encourage critical thinking. Students can complete this individually or in groups during class or as homework.

Part 1: Practical Task

Task: Create a strong password for a new account using a mix of letters, numbers, and symbols. Make it memorable but hard to guess. Write it below (don't use a real password you plan to use!). Then, explain why you think it's secure.

- **Your Password:** _____
- **Why It's Secure:** _____

Part 2: Creative Thinking Exercise

Imagine you're creating a social media profile to showcase your skills for a future job or college application. Answer the following:

- **What platform would you use (e.g., LinkedIn, Instagram) and why?** _____
- **What kind of content would you post to build your personal brand? (e.g., projects, hobbies)** _____

Part 3: Reflection Question

Question: Think about one digital skill from this chapter (like using cloud storage or spotting fake news). How can you use it in your daily life or schoolwork this week?

Part 4: Fun Bonus Challenge (Optional)

Digital Detective: Find a headline or post online and decide if it's real or fake. Write down the headline and one clue that helped you decide (e.g., the website or weird details).

- **Headline:** _____
- **Clue:** _____
