

Chapter 10

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 10: Time Management and Prioritization Under Pressure

Purpose: To help students apply time management and prioritization strategies through interactive, scenario-based activities, self-assessment, and planning exercises. This worksheet focuses on building practical skills to handle pressure and unexpected challenges.

Part 1: Time Management Self-Assessment Quiz

Answer the following questions to see how you currently manage your time under pressure. Circle the option that best describes you. Be honest—this is to help you identify strengths and areas to improve!

- When I have multiple tasks due, I usually: A) Make a list and tackle the most urgent first. B) Jump between tasks without a clear plan. C) Put everything off until the last minute.
- If an unexpected event (like a family emergency) messes up my schedule, I: A) Adjust my priorities and shift less urgent tasks. B) Stress out but try to do everything anyway. C) Give up on my plans completely.
- When balancing school and personal life, I: A) Try to give time to both, even if it's not perfect. B) Focus only on one area and ignore the other. C) Don't think about balance and just go with the flow.
- For setting deadlines, I: A) Estimate how long tasks take and add extra time for surprises. B) Set super tight deadlines to push myself. C) Don't set deadlines and just hope I finish on time.
- When I feel overwhelmed, I: A) Take a break, reorganize, and ask for help if needed. B) Keep pushing even if I'm exhausted. C) Avoid the tasks that are stressing me out.

Reflection: Look at your answers. Which areas are you strong in? Where could you improve? Write one goal for better time management based on this quiz.

Part 2: Scenario-Based Problem Solving

Read each mini-scenario below. Use the skills from Chapter 10 (organizing tasks, balancing life, setting deadlines, adjusting priorities) to solve the problem. Write your plan for each.

Scenario 1: Surprise Assignment It's Monday, and your teacher just announced a surprise essay due on Friday. You already have a science test on Thursday, basketball practice Wednesday, and plans to hang out with friends on Friday night.

- How will you organize your tasks and set realistic deadlines to get everything done?
- How will you balance school and personal life in this situation?

Scenario 2: Family Disruption You've planned to study for finals all weekend, but on Friday, your parents tell you your grandparents are visiting unexpectedly, and you need to help entertain them Saturday and Sunday.

- How will you adjust your priorities to handle this disruption?

- What strategies will you use to still make progress on studying?

Scenario 3: Overloaded Schedule You’ve got a part-time job shift on Tuesday, a group project meeting on Wednesday, a history quiz on Thursday, and a family dinner you can’t miss Thursday night. You’re feeling the pressure!

- How will you use the Eisenhower Matrix (urgent/important sorting) to prioritize your tasks?
- What realistic deadlines will you set for preparing for the quiz and project?

Part 3: Create Your Weekly Time Map

Let’s put your skills into action! Use the table below to map out a rough plan for the upcoming week. Include school tasks (homework, tests), personal activities (friends, hobbies, family), and leave buffer time for unexpected disruptions. Be realistic about how much time things take!

Day	School Tasks (with Deadlines)	Personal Activities	Buffer Time for Surprises
Monday			
Tuesday			
Wednesday			
Thursday			
Friday			
Saturday			
Sunday			

Day

School Tasks (with Deadlines)

Personal Activities

Buffer Time for Surprises

Monday

Tuesday

Wednesday

Thursday

Friday

Saturday

Sunday

Quick Check: Did you balance school and personal life? Did you set realistic deadlines for tasks? Write one thing you notice about your time map.

Part 4: Pressure-Proof Challenge

Imagine you're in a high-stakes situation (like the ones in the chapter's fun scenarios). You're the lead planner for a school dance happening in 5 days. You need to book a DJ, make decorations, and study for a big test the day before the dance. Suddenly, the DJ cancels 2 days before the event!

- Step 1: List all your tasks and use the Eisenhower Matrix to sort them (Urgent & Important, Important but Not Urgent, etc.).
- Step 2: Adjust your priorities after the DJ cancels. How will you handle this disruption?
- Step 3: Set a realistic deadline for finding a new DJ or alternative music solution.

Reflection: How did it feel to solve this challenge using Chapter 10 skills? What's one takeaway you can use in real life?

Part 5: Personal Commitment Plan

Let's make this stick! Choose one time management or prioritization skill from Chapter 10 that you want to focus on improving (e.g., organizing tasks, balancing life, setting deadlines, adjusting priorities). Write a mini-plan to practice it over the next week.

- Skill I'll Focus On: _____
- Why I Chose It:
- How I'll Practice It (Specific Actions):
- When I'll Check My Progress (Date/Time): _____
