

Chapter 4

MCQs

Question 1

What is the first step in the step-by-step approach to tackling big challenges?

- ☐ A) Taking immediate action without planning.
- ☐ B) Defining the problem by figuring out what's really going on.
- ☐ C) Brainstorming solutions without understanding the issue.
- ☐ D) Giving up if the problem seems too big.

Correct Answer: B)

Defining the problem by figuring out what's really going on.

Question 2

How can thinking outside the box help when solutions aren't obvious?

- ☐ A) It encourages you to stick to the same old methods.
- ☐ B) It helps you look at the problem from a fresh, creative angle.
- ☐ C) It guarantees you'll solve the problem instantly.
- ☐ D) It prevents you from ever needing to ask for help.

Correct Answer: B)

It helps you look at the problem from a fresh, creative angle.

Question 3

What does “pivoting” mean in the context of problem-solving?

- ☐ A) Giving up on your goal completely.
- ☐ B) Changing your plan or approach when the current one isn't working.
- ☐ C) Ignoring the problem and hoping it goes away.
- ☐ D) Sticking to the original plan no matter what.

Correct Answer: B)

Changing your plan or approach when the current one isn't working.

Question 4

Why is it important to reflect and adjust after trying a solution?

- ☐ A) To criticize yourself for making mistakes.
- ☐ B) To see if the solution worked and make changes if needed.
- ☐ C) To avoid trying any new ideas in the future.
- ☐ D) To prove that the first solution is always the best.

Correct Answer: B)

To see if the solution worked and make changes if needed.

Question 5

Which of the following is a way to think outside the box when solving a problem?

- ☐ A) Only considering the most obvious solutions.
- ☐ B) Asking “What if” questions to challenge the usual rules.
- ☐ C) Refusing to try anything new or different.
- ☐ D) Focusing only on why the problem can't be solved.

Correct Answer: B)

Asking “What if” questions to challenge the usual rules.
