

Chapter 1

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 1: Introduction to Coding and Its Importance

This worksheet will help you review the key ideas from Chapter 1, including what coding is, why it matters, and how to get started. Complete these activities to build excitement and prepare for your coding journey

Part 1: Short-Answer Questions

Answer the following questions in 1-2 sentences each. Be clear and concise.

- **What is coding, and how would you explain it to a friend?**
- **Name one way coding can be useful in a non-tech career like art or sports.**
- **Why do you think learning to code is important for teens today?**

Part 2: True or False Questions

Circle **True** or **False** for each statement. If False, write a brief correction.

- **Coding is only useful for people who want to work in tech jobs.** True / False Correction (if False):

- **Coding powers everyday technologies like apps, games, and websites.** True / False Correction (if False):

- **You need an expensive computer to start learning how to code.** True / False Correction (if False):

Part 3: Quick Reflection Activity

Dream Project: Think of one idea for a simple project (app, game, or website) you'd like to create by the end of this course. Write 1-2 sentences describing it and why it excites you.

Part 4: Tool Setup Check

Getting Started: Have you set up Visual Studio Code or explored an online platform like Replit? Check the box that applies to you. If not, note one step you'll take this week to get ready.

- Yes, I've set up a coding tool! (Which one? _____)
- Not yet, but I'll take this step: _____

Note for Students: Take a moment to complete this worksheet and share your project idea with a friend or classmate for extra inspiration. Keep this worksheet as a reminder of why you started coding and revisit your dream project idea as you progress through the course. Let's make awesome things happen together!
