

Chapter 8

MCQs

Question 1

What does the term "User Interface (UI)" refer to in app development?

- ☐ A) The code that makes the app function behind the scenes
 - ☐ B) The process of testing and fixing bugs in the app
 - ☐ C) The visual elements like buttons and text that users interact with
 - ☐ D) The speed at which an app loads on a device
- Correct Answer: C) The visual elements like buttons and text that users interact with

Note: No correct answer specified for this question

Question 2

What is the primary purpose of Pygame in game development?

- ☐ A) To design mobile apps using block-based coding
 - ☐ B) To create 2D games using Python with features like graphics and sound
 - ☐ C) To test and debug mobile applications on different devices
 - ☐ D) To build user interfaces for web applications
- Correct Answer: B) To create 2D games using Python with features like graphics and sound

Note: No correct answer specified for this question

Question 3

In the "Dodge the Squares!" game, what happens when an enemy square reaches the bottom of the screen?

- ☐ A) The game ends immediately
 - ☐ B) The enemy is removed, and a new one spawns at the top
 - ☐ C) The player's speed increases automatically
 - ☐ D) The enemy changes colour and moves faster
- Correct Answer: B) The enemy is removed, and a new one spawns at the top

Note: No correct answer specified for this question

Question 4

What is a key advantage of using MIT App Inventor for beginners?

- ☐ A) It requires advanced knowledge of Python programming
 - ☐ B) It allows coding through drag-and-drop blocks instead of typing syntax
 - ☐ C) It is used only for creating complex 3D games
 - ☐ D) It works exclusively on desktop computers without mobile support
- Correct Answer: B) It allows coding through drag-and-drop blocks instead of typing syntax

Note: No correct answer specified for this question

Question 5

In the "Random Meme Picker" app, what component is used to display the random meme quote to the user?

- ☐ A) Button
 - ☐ B) Image
 - ☐ C) Label
 - ☐ D) Clock
- Correct Answer: C) Label

Note: No correct answer specified for this question

Question 6

Why is testing an essential step in app or game development?

- ☐ A) It ensures the app uses the latest programming language
 - ☒ B) It helps identify and fix bugs while improving user experience
 - ☐ C) It automatically adds new features to the app
 - ☐ D) It guarantees the app will be popular among users
- Correct Answer: B) It helps identify and fix bugs while improving user experience

Note: No correct answer specified for this question
