

Chapter 10

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 10: Practical Applications and Assessments

Hey, high schoolers! Welcome to the Chapter 10 worksheet, where you'll put all your crisis management and first aid skills to the test. This is your chance to show off what you've learned through hands-on activities, scenario challenges, and a review of key concepts. Grab a pen, team up with a friend if you can, and let's make sure you're ready to handle real-life emergencies with confidence. Aim to complete this in 30-45 minutes, and have fun becoming a crisis-ready champ!

Part 1: Hands-On First Aid Practice

Let's get practical with the skills you've learned. Answer the questions and complete the mini-tasks below to reinforce your bandaging and CPR/choking rescue know-how.

- **Bandaging Techniques Reflection (2-3 sentences):** Think of a time you or a friend got a minor injury (like a cut or scrape). How would you apply a bandage step-by-step based on what you've learned? If you've never had to do this, imagine a scenario like a skateboarding fall.
- **Mini-Task – Bandage Practice Plan:** Describe how you'd practice bandaging with a friend or family member using household items (like a clean cloth or scarf). What "fake injury" will you simulate, and how will you check if the bandage is secure but not too tight?
- **CPR/Choking Drill Recall (2-3 sentences):** What's the most important thing to remember about the rate and depth of chest compressions during CPR? How can practicing the Heimlich maneuver with a friend (gently!) help you feel more prepared for a choking emergency?

Part 2: Scenario-Based Learning

Test your decision-making and teamwork skills with a simulated emergency. Read the scenario and answer the questions to practice staying calm under pressure.

Scenario: Party Panic You're at a friend's backyard party when someone accidentally knocks over a portable heater, causing a small fire near a pile of dry leaves. People start yelling, and one friend trips while running away, twisting their ankle badly. You've got a phone (full battery), a water bottle, and a hoodie. The nearest adult is inside the house, about 30 feet away.

- **Assess the Situation (2-3 sentences):** What's the immediate danger in this scenario? What resources do you have to help? What's your safest first step?
- **Prioritize Actions (List 3 steps in order):** Write down the first three actions you'd take, in order of importance, to handle this crisis. Explain briefly why each step comes in that order.

◦ Step 1: _____ Why:

- Step 2: _____ Why:

- Step 3: _____ Why:

- **Teamwork Reflection (2-3 sentences):** How could working with others at the party help manage this crisis better? What role would you take (e.g., leader, helper, medic), and why?

Part 3: Interactive Challenge – “Emergency Role-Play Game”

This activity helps you practice real-time crisis response in a fun, safe way. Do this with a friend or family member if possible, or plan it out solo.

Task: Design and Run an Emergency Role-Play Game

- **Step 1: Pick a Scenario** – Choose a pretend emergency relevant to teens (e.g., “friend faints at a mall” or “small kitchen burn during a cooking fail”). Write it in 1-2 sentences.
- **Step 2: Assign Roles** – Decide who plays what role (e.g., victim, responder, bystander). If solo, imagine the roles. List them here.
- **Step 3: Add Challenges** – Include 2-3 obstacles to solve (e.g., “no first aid kit nearby” or “bystander panicking”). Write them down.
 -
 -
 -
- **Step 4: Run It!** – Act out the scenario for 5-10 minutes, timing how fast you “solve” it. If solo, write your step-by-step plan. Plan/Notes: _____
- **Reflection (2-3 sentences):** What felt easy or hard during this role-play? How did it boost your confidence for a real emergency?

Part 4: Course Review Reflection

Let’s recap the big takeaways from the entire course. Reflect on your growth and plan how to keep these skills sharp.

- **Key Skills Recap (Pick 2 skills):** Choose two skills from the course (e.g., CPR, assessing situations, teamwork) that you feel most confident about. Why do they stand out to you, and how could you use them in everyday teen life?
 - Skill 1: _____ Why/How:

 - Skill 2: _____ Why/How:

- **Growth Check (2-3 sentences):** How have you grown in handling emergencies since starting this course? What’s one area you still want to improve, and how will you work on it?
- **Future Action Plan (1 goal):** Set one goal to stay crisis-ready after this course (e.g., practice CPR monthly, teach a friend a skill, join a safety workshop). Describe it and how you’ll start. Goal:
_____ How I’ll Start:

Part 5: Quick Self-Assessment

Rate yourself on a scale of 1-5 (1 = Not Confident, 5 = Super Confident) for each skill below after completing this worksheet. Circle your score and add a quick note on how you can improve if needed.

- **Hands-On First Aid Skills (Bandaging/CPR):** 1 2 3 4 5 Note:

-
- **Handling Simulated Emergencies:** 1 2 3 4 5 Note:
-

- **Teamwork in Crisis Situations:** 1 2 3 4 5 Note: _____

Wrap-Up Note: Great work crushing this Chapter 10 worksheet! You've practiced first aid hands-on, tackled a high-stakes scenario, role-played a crisis, and reviewed your epic journey through this course. Keep it up!
