

Chapter 2

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet: Chapter 2 - Understanding Personal Data and Privacy

Instructions for High School Students: Hey there! This worksheet is a quick way to review Chapter 2. It's designed to be fun and interactive with less writing and more circling, matching, and checking. Complete each section by following the prompts. Chat with a friend or classmate if you're stuck on anything. Let's lock down your privacy skills!

Part 1: Match the Concept to Its Meaning (Draw a Line) Connect each term or idea on the left to its correct description on the right by drawing a line between them.

Concept	Description
Personal Data	Controls who sees your online posts and info
Privacy	Info like your name, address, or location
Social Media Settings	Sharing too much can lead to stalking or scams
Oversharing Risk	Tools to set your account to "private" or "friends only"
Safe Sharing	Posting only non-personal stuff or with permission

Concept

Description

Personal Data

Controls who sees your online posts and info

Privacy

Info like your name, address, or location

Social Media Settings

Sharing too much can lead to stalking or scams

Oversharing Risk

Tools to set your account to “private” or “friends only”

Safe Sharing

Posting only non-personal stuff or with permission

Part 2: True or False (Circle the Correct Answer) Read each statement and circle whether it’s True or False based on what you’ve learned in Chapter 2.

- Personal data includes things like your phone number and school name. True / False
- Privacy doesn’t matter for teens since they’re not targets online. True / False
- Setting your social media to “private” can help protect your info. True / False
- It’s safe to post your home address in a public group chat. True / False
- Oversharing online can affect your future, like college applications. True / False

Part 3: Spot the Privacy Risk (Circle the Risky Choice) Look at these teen scenarios. Circle the one action in each pair that could be a privacy risk.

- a) Posting a pic of your dog with no location tag b) Posting a story with your exact home address
- a) Setting your Instagram to “private” b) Tagging your location at the mall while you’re still there
- a) Sharing a meme with no personal info b) Posting a rant about your teacher with their name included

Part 4: Quick Check (One-Word Answers) Answer these with just one or two words. Think about your own online habits!

- Name one piece of personal data (like address or birthdate): _____
- Name one social media app you use: _____
- Name one privacy setting to check (like “private account”): _____

Part 5: Action Challenge (Check the Box When Done) Pick one small privacy step to do after this worksheet. Check the box once you’ve completed it!

- Check if one social media account is set to “private” (fix it if not).
- Tell a friend or family member one privacy tip from this chapter.
