

Chapter 3

MCQs

Question 1

What is a key characteristic of a strong password?

- A) It should be short and easy to remember, like your name
- B) It should be at least 12 characters long with a mix of letters, numbers, and symbols
- C) It should be the same for all your accounts to avoid forgetting
- D) It should include your birthdate for personal significance

Correct Answer: B)

It should be at least 12 characters long with a mix of letters, numbers, and symbols

Question 2

How does a password manager help with account security?

- A) It automatically logs you into websites without a password
- B) It stores unique, complex passwords securely so you don't have to remember them
- C) It shares your passwords with trusted friends for backup
- D) It creates weak passwords that are easy to type quickly

Correct Answer: B)

It stores unique, complex passwords securely so you don't have to remember them

Question 3

What is the purpose of Two-Factor Authentication (2FA)?

- ☐ A) To make logging in faster by skipping passwords
- ☒ B) To add an extra layer of security by requiring a second step, like a code sent to your phone
- ☐ C) To allow others to access your account with a shared code
- ☐ D) To store your passwords in a second location for safety

Correct Answer: B)

To add an extra layer of security by requiring a second step, like a code sent to your phone

Question 4

Which of the following is a common sign of a phishing attempt?

- ☐ A) An email from a trusted company with no links or urgent requests
- ☒ B) A message claiming "Your account will be deleted in 24 hours!" with a suspicious link
- ☐ C) A text from a friend asking how you're doing without any links
- ☐ D) A notification from an app you use with correct spelling and branding

Correct Answer: B)

A message claiming "Your account will be deleted in 24 hours!" with a suspicious link
