

Chapter 4

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 4: Recognizing Online Threats

Purpose: To reinforce key concepts from Chapter 4, encourage critical thinking, and help students apply cyber safety skills in real-life scenarios.

Part 1: Key Terms Matching (10 points)

Match the following terms from Chapter 4 to their correct definitions. Write the letter of the definition next to the term.

- Malware _____
- Ransomware _____
- Phishing _____
- Cyberbullying _____
- Fake News _____

Definitions: A. False or misleading information spread online, often to trick or influence people. B. Malicious software designed to harm or steal data from devices, often entering through sketchy links or downloads. C. A cyber threat that locks your device or files and demands payment to unlock them. D. Using the internet or social media to harass, threaten, or humiliate someone. E. A scam where attackers pretend to be trustworthy to steal personal info like passwords.

Part 2: True or False (10 points)

Read each statement carefully and circle **True** or **False**. If the statement is false, briefly explain why in the space provided.

- Malware only affects laptops and cannot harm smartphones. True / False Why?

- Paying the ransom in a ransomware attack guarantees you'll get your files back. True / False Why?

- A phishing message often creates a sense of urgency to make you act quickly without thinking. True / False Why? _____
- Cyberbullying is just a joke and doesn't have serious consequences. True / False Why?

- Sharing a viral post without checking if it's true can help spread fake news. True / False Why?

Part 3: Short Answer Scenarios (20 points)

Read each scenario below and answer the questions in complete sentences.

Scenario 1: Malware Alert Jake downloads a “free game cheat” from a random website. Soon, his phone starts lagging, and weird ads pop up constantly.

- What type of cyber threat might Jake have encountered? (2 points)
- What should Jake do to protect his device now? (3 points)

Scenario 2: Suspicious Message Mia gets a text saying, “Your TikTok account is suspended! Click here to verify now.” The link looks odd, and the sender isn’t from TikTok.

- What type of threat is this likely to be? (2 points)
- What are two red flags Mia should notice, and what should she do instead of clicking? (3 points)

Part 4: Spot the Threat – Interactive Challenge (10 points)

Look at the following examples and decide if they represent a cyber threat. Circle **Yes** or **No**, and briefly explain why.

- A post on Instagram says, “Free iPhone for the first 100 shares!” with no source or proof. Yes / No Why?

- A classmate sends you a private message asking how your day was. Yes / No Why?

- You receive an email from "" saying, “Urgent: Reset ur password now!” Yes / No Why?

- A group chat on Snapchat keeps tagging you with mean nicknames and memes about your looks. Yes / No Why? _____

Part 5: Personal Action Plan (10 points)

Think about your own online habits and write a short action plan to stay safe from the threats discussed in Chapter 4. Answer in complete sentences.

- What is one thing you’ll do this week to protect your devices from malware or spyware? (e.g., downloading antivirus software, avoiding random links)
- How will you check if a viral post is real before sharing it on social media?

Bonus Question (5 extra points)

If you or a friend were facing cyberbullying, who is one trusted person you would tell, and why? Write your answer in a complete sentence.
