

Chapter 1

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 1: Introduction to Data Literacy

Instructions: Complete the following tasks and questions to review what you've learned in Chapter 1: Introduction to Data Literacy. Keep your answers short and clear. This worksheet should take about 15-20 minutes to complete.

Part 1: Quick Recall (True or False Questions)

Read each statement and write **True** or **False** next to it.

- Data is only used by scientists and not in everyday life. _____
- Qualitative data describes qualities or opinions, like "The song is awesome." _____
- Data literacy helps you understand information to make better decisions. _____

Part 2: Spot the Data (Short Written Task)

Think about your day so far. Write down **one example** of data you've come across. It could be something you saw, heard, or used. Then, say if it's **qualitative** (descriptive) or **quantitative** (numerical). Keep it to 2-3 sentences.

My Example:

Type of Data (Qualitative or Quantitative): _____

Part 3: Think and Reflect (Mini Discussion Prep)

Answer this question in 2-3 sentences to prepare for a class discussion. **Question:** How does data affect your life on social media or apps? (Example: Does it show you ads or suggest videos?) **My Answer:**

Part 4: Fun Challenge (Quick Activity)

Over the next day, notice one app or website you use (like Instagram or YouTube). Write down one piece of data it might be collecting about you (e.g., what you watch or search). **App/Website:** _____ **Data It Might Collect:** _____
