

Chapter 2

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 2: Sources and Collection of Data

Instructions: Complete the following tasks and questions to review what you've learned in Chapter 2: Sources and Collection of Data. Keep your answers clear and concise. This worksheet should take about 20-30 minutes to complete. Have fun exploring the world of data!

Part 1: True or False Challenge (Quick Recall)

Read each statement carefully and decide if it is **True** or **False**. Write your answer next to each statement and provide a brief reason (1 sentence) for your choice.

- **Primary data is data that you collect yourself directly from the source.** Answer: _____ Reason: _____
- **Social media platforms are only a source of secondary data, never primary.** Answer: _____ Reason: _____
- **Asking biased questions in a survey can help you get more accurate results.** Answer: _____ Reason: _____

Part 2: Spot the Source (Short Written Task)

Think about your day or week so far. Write down **one example** of a data source you've come across. It could be something you saw, used, or heard about (like a fitness tracker, a poll online, or a news report). Then, say if it's a **primary** or **secondary** data source and explain why in 2-3 sentences.

My Example:

Type of Data Source (Primary or Secondary): _____ **Why?**

Part 3: Design a Mini-Survey (Creative Task)

Imagine you're collecting data from your classmates about their favorite weekend activities. Write **3 simple, unbiased questions** for a short survey. Make sure the questions are clear and have easy answer options (like Yes/No or multiple choice).

Question 1:

Question 2:

Question 3:

Bonus: Why did you make sure these questions are unbiased? (1-2 sentences)

Part 4: Organize Data (Table Activity)

Below is data collected from a small survey of 5 students about their study hours per day. Organize this data into

a neat table. Then, write one observation or pattern you notice from the data.

- Riya: 2 hours
- Sam: 1 hour
- Tara: 3 hours
- Arjun: 2 hours
- Maya: 1 hour

Table:

Student Name	Study Hours per Day

Student Name

Study Hours per Day

Observation/Pattern:

Part 5: Think and Reflect (Mini Discussion Prep)

Answer this question in 2-3 sentences to prepare for a class discussion. **Question:** Why do you think it's important to collect data from different kinds of people (not just your friends) when doing a survey?

My Answer:
