 - ☐ D) Sharing your findings on social media
- Correct Answer: B

Note: No correct answer specified for this question

Question 2

What is the purpose of defining a problem statement and objectives for your project?

- ☐ A) To make the project look more professional with big words
 - ☐ B) To keep your project focused by clearly stating the issue and specific goals
 - ☐ C) To confuse your classmates with complicated ideas
 - ☐ D) To avoid collecting any data for the project
- Correct Answer: B

Note: No correct answer specified for this question

Question 3

Which of the following is an example of collecting and organizing data for a Capstone Project?

- ☐ A) Guessing the results without any information
 - ☐ B) Tracking your screen time for a week and entering it into a table in Google Sheets
 - ☐ C) Drawing random pictures instead of using data
 - ☐ D) Ignoring data and writing a fictional story
- Correct Answer: B

Note: No correct answer specified for this question

Question 4

Why is creating visualizations, like charts or graphs, important for your project?

- ☐ A) They make your project look pretty but don't add any value
 - ☐ B) They help others understand your data findings quickly and clearly
 - ☐ C) They are only useful for art class, not data projects
 - ☐ D) They replace the need to explain your project in words
- Correct Answer: B

Note: No correct answer specified for this question

Question 5

What should you include when presenting your Capstone Project to peers?

- ☐ A) Only the parts that didn't work, to get sympathy
 - ☐ B) Your topic, key findings, visualizations, and a recommendation based on your data
 - ☐ C) A long speech with no visuals or data insights
 - ☐ D) Only the data collection process, without any conclusions
- Correct Answer: B

Note: No correct answer specified for this question
