

Chapter 7

MCQs

Question 1

What is one key benefit of teamwork for high school students in solving complex problems through Design Thinking?

- ☐ A) It increases individual workload.
- ☐ B) It limits the number of ideas generated.
- ☐ C) It allows for diverse perspectives to create solutions for more people.
- ☐ D) It makes projects more stressful by involving more people. Answer: C

Note: No correct answer specified for this question

Question 2

What is the primary responsibility of the Timekeeper role in a Design Thinking team?

- ☐ A) To write down key ideas and feedback during meetings.
- ☐ B) To guide the team by setting goals and solving disagreements.
- ☐ C) To manage time during tasks and ensure the team sticks to schedules.
- ☐ D) To brainstorm creative solutions for the project. Answer: C

Note: No correct answer specified for this question

Question 3

What does active listening involve in a Design Thinking team?

- ☐ A) Interrupting teammates to share your own ideas quickly.
- ☐ B) Paying full attention without interrupting and showing understanding.
- ☐ C) Ignoring distractions by focusing on your own thoughts.
- ☐ D) Only listening to ideas that agree with your own. Answer: B

Note: No correct answer specified for this question

Question 4

What is the first step recommended for resolving conflicts in a Design Thinking team?

- ☐ A) Blame the person responsible for the disagreement.
- ☐ B) Stay calm and take a break if emotions are high.
- ☐ C) Ignore the conflict and move on to the next task.
- ☐ D) Immediately vote on a solution without discussion. Answer: B

Note: No correct answer specified for this question

Question 5

Why is it important to learn from challenges in a Design Thinking project?

- ☐ A) To assign blame to team members for mistakes.
- ☐ B) To avoid repeating mistakes and improve for future projects.
- ☐ C) To focus only on the negative aspects of the project.
- ☐ D) To ignore the successes and only critique the team. Answer: B

Note: No correct answer specified for this question

Question 6

How does teamwork contribute to the different stages of Design Thinking, such as Empathize and Ideation?

- ☐ A) It slows down the process by involving too many opinions.
 - ☒ B) It allows for broader insights through interviews and generates more ideas through group brainstorming.
 - ☐ C) It limits the team to only one stage at a time.
 - ☐ D) It prevents iteration by focusing on a single solution.
- Answer: B

Note: No correct answer specified for this question
