

Chapter 3

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet: Chapter 3 - Introduction to Photography for Content Creation

Course: Digital Content Creation & Storytelling Skills for High Schoolers **Objective:** Apply key photography concepts from Chapter 3 to enhance your digital content creation skills through practical exercises and reflection.

Part 1: Quick Recall (Answer in 1-2 sentences)

- **Camera vs. Smartphone:** What's one advantage of using a smartphone for photography over a traditional camera like a DSLR? How can this help with your content creation?
- **Lighting Matters:** What is "golden hour," and why is it a great time to shoot photos for your social media posts?

Part 2: Composition Practice

- **Apply Composition Techniques:** Choose one everyday subject (like your backpack, a friend, or a meal). Plan how you'd photograph it using the following techniques. Write a brief description for each.
 - **Rule of Thirds:** Where will you place the subject in the frame?
 - **Framing:** What natural elements (e.g., doorways, windows) can you use to frame it?
 - **Leading Lines:** What lines (e.g., hallways, paths) can guide the viewer's eye to the subject?

Part 3: Hands-On Challenges

- **Lighting Experiment:** Take two photos of the same subject (e.g., a selfie or an object) using different lighting:
 - One with natural light (near a window or outside during golden hour).
 - One with artificial light (using a lamp, ring light, or fairy lights). Describe how the lighting changes the mood or vibe of each photo.
 - Natural Light Photo: _____
 - Artificial Light Photo: _____
- **Bonus:** Post both on your Story with a poll asking, "Which lighting wins?"
- **Editing Practice:** Pick one recent photo from your phone and edit it using a free app like Snapseed or Canva. Adjust at least two elements (e.g., brightness, contrast, saturation, or crop). Write what you changed and why.
 - App Used: _____
 - Changes Made: _____
 - Reason for Changes: _____

- **Bonus:** Share the before-and-after on social media with “Edited this! Thoughts?”

Part 4: Building Your Style

- **Visual Style Brainstorm:** Think about the kind of vibe or “look” you want for your content (e.g., bright and funny, moody and edgy, soft and pastel). Answer the following to start crafting your visual style:
 - Color Palette (e.g., warm tones, neon vibes): _____
 - Theme or Subject (e.g., school life, streetwear, nature): _____
 - Filter/Preset Idea (e.g., vintage, high-contrast): _____ Describe how this style reflects your personality or niche as a creator.

Bonus: Plan your next 3 posts with this style in mind. Jot down quick ideas for subjects or locations.

- Post 1: _____
- Post 2: _____
- Post 3: _____

Part 5: Reflection

- **What’s Your Takeaway?** What’s one photography tip or technique from this chapter (e.g., a composition trick, lighting hack, or editing tool) that you’re most excited to use in your next piece of content? Why do you think it’ll improve your posts or videos?
