

## Chapter 4

### MCQs

#### Question 1

What is a key advantage of using a smartphone for video creation compared to a DSLR camera?

- ☐ A) Smartphones always have better video quality than DSLRs
- ☐ B) Smartphones are more expensive but offer superior manual controls
- ☐ C) Smartphones are portable, easy to use, and can shoot HD video right from your pocket
- ☐ D) Smartphones allow for interchangeable lenses for cinematic effects

**Correct Answer: C)**

Smartphones are portable, easy to use, and can shoot HD video right from your pocket

#### Question 2

What is the purpose of a storyboard in video planning?

- ☐ A) To write detailed dialogue for every scene in the video
- ☐ B) To create a visual map of shots and scenes to organize the video's flow
- ☐ C) To list all the equipment needed for filming
- ☐ D) To edit the video after filming is complete

**Correct Answer: B)**

To create a visual map of shots and scenes to organize the video's flow

### Question 3

Which shooting technique would you use to make a subject look powerful or intimidating in a video?

- ☐ A) Eye-Level Angle
- ☐ B) High Angle (Looking Down)
- ☐ C) Low Angle (Looking Up)
- ☐ D) Wide Shot

**Correct Answer: C)**

Low Angle (Looking Up)

### Question 4

Why is recording quality audio important for videos, and how can you improve it on a budget?

- ☐ A) Audio doesn't matter as long as the visuals are good; use any mic
- ☐ B) Clear audio keeps viewers engaged; use a cheap lavalier mic or earbuds with a built-in mic
- ☐ C) Audio is only important for music videos; record in noisy areas for realism
- ☐ D) Good audio requires expensive studio equipment; avoid recording without it

**Correct Answer: B)**

Clear audio keeps viewers engaged; use a cheap lavalier mic or earbuds with a built-in mic

### Question 5

What is a simple way to build confidence and engage your audience when appearing on camera?

- ☐ A) Memorize a long script to avoid mistakes and sound professional
- ☐ B) Avoid looking at the camera to feel less nervous
- ☐ C) Talk to the camera like it's a friend, make eye contact with the lens, and ask viewers questions
- ☐ D) Keep videos silent to focus on visuals instead of speaking

**Correct Answer: C)**

Talk to the camera like it's a friend, make eye contact with the lens, and ask viewers questions
