

Chapter 6

MCQs

Question 1

What is the primary purpose of combining visuals and audio in digital storytelling?

- ☐ A) To make the video longer and fill up time
- ☐ B) To create a specific mood or emotion and enhance the story's impact
- ☐ C) To confuse viewers with mismatched elements for surprise
- ☐ D) To focus only on background music without considering visuals

Correct Answer: B)

To create a specific mood or emotion and enhance the story's impact

Question 2

How does fast pacing in video storytelling affect the viewer's experience?

- ☐ A) It slows down the story to build deeper emotional connections
- ☐ B) It creates boredom by rushing through important moments
- ☐ C) It builds excitement and energy with quick cuts and short clips
- ☐ D) It focuses only on long, detailed scenes for clarity

Correct Answer: C)

It builds excitement and energy with quick cuts and short clips

Question 3

Why is creating a series or thematic content important for audience retention on platforms like TikTok or YouTube?

- ☐ A) It confuses viewers by changing topics every video
- ☒ B) It gives viewers consistent content to look forward to, building loyalty
- ☐ C) It prevents creators from trying new ideas or formats
- ☐ D) It focuses only on one-time viral videos without planning

Correct Answer: B)

It gives viewers consistent content to look forward to, building loyalty

Question 4

What is a key benefit of using feedback to improve storytelling techniques in digital content?

- ☐ A) It allows creators to ignore their audience and focus on personal style
- ☒ B) It helps identify strengths and weaknesses to make content more engaging
- ☐ C) It discourages creators from experimenting with new ideas
- ☐ D) It only focuses on negative comments to demotivate creators

Correct Answer: B)

It helps identify strengths and weaknesses to make content more engaging
