

Chapter 4

MCQs

Question 1

Creating a Timeline for Your Event What is the first step in creating a timeline for an event, and why is it important?

- ☐ A) Brainstorming all tasks to ensure nothing is forgotten.
- ☐ B) Setting the event date to establish a clear finish line.
- ☐ C) Assigning tasks to team members to divide the workload.
- ☐ D) Building buffer time to avoid last-minute stress.

Correct Answer: B)

Setting the event date to establish a clear finish line.

Question 2

Using Tools for Organization Which of the following is a key benefit of using a digital tool like Google Calendar or Trello for event planning?

- ☐ A) It allows you to decorate your plans with stickers and doodles.
- ☐ B) It automatically completes tasks for you without manual input.
- ☐ C) It enables easy sharing with your team and setting reminders for deadlines.
- ☐ D) It works without an internet connection or phone access.

Correct Answer: C)

It enables easy sharing with your team and setting reminders for deadlines.

Question 3

Prioritizing Tasks Using the Urgency-Importance Matrix, how should you handle a task that is high urgency but low importance, such as posting a last-minute social media update?

- ☐ A) Do it first, as it requires immediate attention over all other tasks.
- ☐ B) Plan for it soon, as it still contributes to the event's success.
- ☐ C) Delegate it if possible, since it's time-sensitive but not critical.
- ☐ D) Do it last, as it doesn't impact the event significantly.

Correct Answer: C)

Delegate it if possible, since it's time-sensitive but not critical.

Question 4

Handling Delays and Setbacks What is a recommended strategy for handling a setback like a vendor cancelling at the last minute?

- ☐ A) Panic and cancel the event immediately to avoid further issues.
- ☐ B) Ignore the problem and hope it resolves itself before the event.
- ☐ C) Stay calm, assess the impact, and activate a backup plan.
- ☐ D) Blame the team for not anticipating the issue earlier.

Correct Answer: C)

Stay calm, assess the impact, and activate a backup plan.
