

Chapter 10

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet: Legal and Ethical Considerations (Chapter 10)

These activities cover understanding who owns what online, the consequences of stealing content, the laws you need to follow, and how to make the right call in sticky situations. Grab a pen, your phone, or a laptop, and let's make sure your brand stays safe and respected!

Part 1: Understanding Copyright and Intellectual Property Online

Let's get clear on who owns what in the digital world so you don't accidentally step on legal toes.

- **Spot the Copyright:** Think about the last piece of content you used or shared online (like a song in a TikTok, a pic for a project, or a meme). Write down:
 - What was it? (e.g., "A song for my dance vid on TikTok")
 - Do I know if it's copyrighted or free to use? (e.g., "Not sure, just picked it from the app")
 - If it's not mine, did I give credit or check for permission? (e.g., "No, didn't think about it")
- **Make It Legit Plan:** Pick one way you can avoid copyright issues for your next post or project. (e.g., "Use a free track from YouTube Audio Library" or "Create my own meme with Canva") What will you do?

Part 2: Consequences of Plagiarism and Unauthorized Sharing

Time to see why "borrowing" content without credit can mess with your brand and future.

- **Check Your Work:** Think of a recent school assignment or social media post you made. Write down:
 - Did I use someone else's words, ideas, or images? (e.g., "Copied a quote for my Insta story")
 - Did I give credit or ask permission? If not, why? (e.g., "No, forgot to tag the source")
 - How could I have made it original or cited it? (e.g., "Rewrite it in my words and tag the person")
- **Why Avoid It?** Why do you think plagiarism or unauthorized sharing could hurt your personal brand or future goals like college or jobs?

Part 3: Cyber Laws and Teen Responsibilities

Let's figure out the online rules you've gotta follow to stay out of trouble.

- **Know the Law:** Pick one cyber law area (cyberbullying, data privacy, hacking/piracy, or explicit content) from the chapter that surprised you or feels relevant. Write down:
 - Which law or rule? (e.g., "Cyberbullying laws")
 - Why does it matter to me as a teen? (e.g., "I don't want to hurt someone or get suspended")
 - One way I can follow it online. (e.g., "Think before commenting mean stuff on posts")

- **Safety Check:** What's one action you can take this week to be safer online based on cyber laws? (e.g., "Tighten my Instagram privacy settings" or "Not share personal info in chats")

Part 4: Ethical Dilemmas in the Digital World

Let's tackle those tough online choices where right and wrong aren't always clear.

- **What Would You Do?** Pick one scenario below and write how you'd handle it ethically:
 - Scenario 1: A friend sends a link to a pirated game. Do you download it or not? Why?
 - Scenario 2: You see a mean post about a classmate going viral. Do you like it, ignore it, or speak up? Why?
- **Values Check:** Why do you think making ethical choices online is important for your personal brand? (e.g., "Shows I'm trustworthy")

Part 5: Reflection & Action Plan

Wrap up by thinking about how to keep your online presence legal and ethical while staying true to you.

- **Biggest Eye-Opener:** What's one thing from this chapter that made you rethink how you act online? (e.g., "Didn't know piracy could get me in legal trouble")
- **My Integrity Goal for This Week:** Pick one small action from any section above to keep your brand legal and ethical. (e.g., "Use only free images for my next post" or "Call out bullying if I see it online")

Bonus Challenge (Optional): Take one step from your action plan or any part of this worksheet and DO IT this week—like using a free resource for content, giving credit on a post, checking your privacy settings, or making an ethical call in a tough spot. Write down how it felt to take that step toward a legit, trustworthy brand. If you're up for it, share your progress with a friend or family member for some extra motivation!
