

Chapter 2

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet: Chapter 2 - Understanding Your Digital Footprint

This worksheet is designed to help you explore and apply the concepts from Chapter 2: Understanding Your Digital Footprint. Through these activities, you'll gain a deeper understanding of what a digital footprint is, how it's created, and how to assess your own online presence. Complete the sections below to take control of your digital trail and think about how it connects to your personal brand. Let's dive in!

Part 1: What's Your Digital Footprint?

Objective: Understand the concept of a digital footprint and identify examples from your own online activities.

- **Define It in Your Words:** After reading the chapter, write a short definition of "digital footprint" as if you're explaining it to a friend who's never heard of it.
 - My Definition: _____
- **Your Digital Actions:** List three things you've done online in the past week (e.g., posted a photo, watched a video, searched for something). How do these actions add to your digital footprint?
 - Action 1: _____ (How it adds: _____)
 - Action 2: _____ (How it adds: _____)
 - Action 3: _____ (How it adds: _____)

Part 2: Active vs. Passive Digital Footprint

Objective: Differentiate between active and passive digital footprints with real examples from your life.

- **Spot the Difference:** Think about your online activity. Write down one example of your active digital footprint (something you chose to share) and one example of your passive digital footprint (data collected without you posting).
 - Active Example (e.g., a post): _____
 - Passive Example (e.g., a search): _____
- **Reflection:** Which type of footprint (active or passive) do you think you have more control over? Why?
 - My Answer: _____

Part 3: How Your Actions Leave a Trace

Objective: Recognize the ways your online actions create a lasting digital trail.

- **Scenario Analysis:** Read the scenario below and answer the questions. *Scenario: Jayden shares a funny meme on Instagram, but it gets a lot of likes and is reposted by others. Later, Jayden also searches for "best gaming laptops" on Google, and now ads for laptops keep popping up everywhere.*

- What part of this is Jayden's active digital footprint? _____
- What part is Jayden's passive digital footprint? _____
- How might the meme sharing leave a trace, even if Jayden deletes the post? _____
- **Think About It:** Name one app or website you use often (e.g., Snapchat, YouTube). How might it be tracking you or leaving a trace in your digital footprint (like location data or watch history)?
 - App/Website: _____
 - How It Tracks Me: _____

Part 4: Assessing Your Current Digital Footprint

Objective: Take a first look at your own digital footprint to see what's out there about you.

- **Mini Digital Audit:** Do a quick check of your online presence. If you don't have social media, think about emails, group chats, or any online activity. Answer the following (ask a parent/guardian for help if needed):
 - Google My Name: What's the first thing that comes up? _____
 - Social Media Check: Look at your main account. What's one old post or photo still up? Does it match how you want to be seen? _____
 - Privacy Settings: Are your accounts public or private? _____
 - Surprising Find: Did you find anything unexpected about yourself online? _____
- **First Impressions:** Based on your mini audit, what kind of first impression might someone (like a college scout or future employer) get about you from your digital footprint? Write 2-3 sentences.

Part 5: Creative Bonus Activity

Objective: Visualize your digital footprint in a fun and creative way.

- **Draw Your Digital Trail:** Imagine your digital footprint as a path or trail you've left behind online. Draw a quick sketch (or describe it) showing what's on your path. Include things like posts (maybe a big rock), searches (maybe footprints), or tagged photos (maybe a signpost). Use symbols or colours to show if parts are positive or negative.
 - Sketch Space (or Description):
