

Chapter 7

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 7: Effective Use of Visual Aids and Technology

Title: "Tech & Visual Victory: Power Up Your Presentation!"

This quick sheet helps you master using visual aids and technology with fun activities on purpose, slide design, tech practice, and balancing visuals with speech. Think of this as a mini-mission—each section is a “stage” to complete, earning you “presentation points.” Grab a pen or your phone, and let’s make your talks visually epic! Aim for at least 40 points to become a “Visual Tech Master”!

Stage 1: Purpose of Visual Aids (10 Points)

Mission: Use aids to enhance, not distract! Visuals must have a clear role. Try this challenge.

- **Aid Aim Check (10 points):** Pick a topic (e.g., “Why recycling matters”). Choose 1 visual aid (slide, prop, or handout) and write why it clarifies, engages, or reinforces a point.
 - My aid: _____
 - Why it helps: _____
 - (Completed = 10 points)

Stage 1 Score: ____/10

Stage 2: Designing Clear Slides (10 Points)

Mission: Create visuals that pop without clutter! Clear slides keep focus. Test it out.

- **Slide Simplify (10 points):** Sketch or describe 1 slide for your topic with minimal text (under 5 words), a big font idea (e.g., “Arial, size 28”), and 1 visual (image/chart). Check if it’s readable from 5 feet away. Note if it feels clear.
 - My slide idea: _____
 - Is it readable and simple? (Yes/No and why) _____
 - (Completed = 10 points)

Stage 2 Score: ____/10

Stage 3: Practicing with Technology (10 Points)

Mission: Prep for tech to avoid glitches! Rehearse to stay smooth. Try this activity.

- **Tech Test Run (10 points):** Plan a 30-second mini-talk on your topic using a “device” (phone, paper as pretend slide). Fake a glitch (e.g., “screen freezes”) and recover with a line like “No worries, here’s the point!” Note how it felt.
 - How did I handle the glitch? _____

- Did I stay calm? (Yes/No and why) _____
- (Completed = 10 points)

Stage 3 Score: ____/10

Stage 4: Balancing Visuals and Speech (10 Points)

Mission: Keep your voice the star! Visuals support, not steal. Work on it here.

- **Speech Sync (10 points):** For your topic, write 2-3 spoken sentences to explain your visual aid (not read it). Practice to a mirror or friend, looking at “audience” more than aid. Note if speech led.
 - My sentences: _____
 - Did my voice lead? (Yes/No and why) _____
 - (Completed = 10 points)

Stage 4 Score: ____/10

Bonus Stage: Quick Reflection (5 Bonus Points)

Mission: Think about your visual/tech growth! Wrap up by reflecting on what you’ve tried.

- **Reflection (5 bonus points):** What’s one visual or tech skill from this worksheet you want to use more (e.g., clear slides, tech prep)?
 - Write it here: _____
 - (Completed = 5 bonus points)

Bonus Stage Score: ____/5

Final Score & Reward

Total Presentation Points: ____/45 (Add up all stages, including bonus!)

- **40-45 Points: Visual Tech Master!** Awesome work—reward yourself with a fave song or snack!
- **30-39 Points: Slide Strategist!** Great job—try one more stage to hit Master level!
- **Below 30 Points: Tech Rookie!** Nice start—redo a stage or try with a friend to boost your score!

Quick Thought: Write one thing you learned about using visual aids or tech:

Fun Wrap-Up: Share your fave stage (like “Slide Simplify”) with a friend or family member and do it together for a laugh. Note how it went to remember this visual/tech boost!
