

Chapter 1

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 1: Introduction to Research Skills

Activity 1: Curiosity Brainstorm

Objective: To identify personal areas of curiosity and frame research questions. **Instructions:** Think about topics or questions that interest you, whether related to school, hobbies, or daily life. Write down three questions you're curious about in the space below. Make sure each question is specific and researchable. For example, instead of "Why is cricket popular?" write "Why is cricket more popular than football among teens in India?"

-
-
-

Activity 2: Primary vs. Secondary Research Planning

Objective: To distinguish between primary and secondary research by planning how to investigate a topic. **Instructions:** Choose one of the questions you wrote in Activity 1. In the table below, suggest one way to explore this question using primary research (collecting your own data) and one way using secondary research (using existing information). Be specific about the methods or sources you would use.

Selected Question: _____

Type of Research	Method to Explore the Question
Primary Research	
Secondary Research	

Type of Research

Method to Explore the Question

Primary Research

Secondary Research

Activity 3: Research Process Roadmap

Objective: To understand and apply the steps of the research process to a real-life scenario. **Instructions:** Imagine you want to convince your school to introduce a new club or activity (e.g., a coding club or dance group). Using the five steps of the research process outlined in the chapter, briefly outline how you would approach this

task. Write one or two sentences for each step.

- **Identify Your Question or Topic**
- **Plan Your Approach**
- **Gather Information**
- **Analyze Your Findings**
- **Draw Conclusions and Share**

Activity 4: Everyday Research Challenge

Objective: To recognize the importance of research skills in daily decision-making. **Instructions:** Think of a small decision you or your family might make soon, such as buying a gadget worth ₹5,000 (approx. \$60), choosing a weekend outing spot, or picking a new recipe to try. Describe the decision below and list three specific ways you could use research to make a better choice (e.g., checking online reviews, asking friends, comparing prices).

Decision to Research: _____

Three Ways to Use Research:

-
-
-

Reflection Corner: After completing this worksheet, write a short note (2-3 sentences) on what you learned about research skills from these activities. How do you think these skills can help you in school or personal life?
