

Chapter 10

MCQs

Question 1

According to the chapter, how can research skills help with college and career readiness?

- ☐ A) By helping you avoid all applications and interviews
- ☐ B) By providing solid facts for essays and showing initiative in interviews
- ☐ C) By focusing only on hobbies unrelated to your goals
- ☐ D) By spending large amounts like ₹50,000 (approx. \$600) on resources

Correct Answer: B)

By providing solid facts for essays and showing initiative in interviews

Question 2

What is one way the chapter suggests using research to solve everyday problems?

- ☐ A) Ignoring small issues and hoping they resolve themselves
- ☐ B) Searching for product reviews before buying items like a ₹3,000 (approx. \$36) phone case
- ☐ C) Relying solely on friends' opinions without checking facts
- ☐ D) Spending ₹1,000 (approx. \$12) on professional help for every issue

Correct Answer: B)

Searching for product reviews before buying items like a ₹3,000 (approx. \$36) phone case

Question 3

What does the chapter recommend for staying updated with credible news and information?

- ☐ A) Believing every WhatsApp forward without verification
- ☐ B) Sticking to trusted sources like BBC India and fact-checking viral claims
- ☐ C) Only reading random blogs with sensational headlines
- ☐ D) Avoiding news altogether to save time and ₹100 (approx. \$1.20) data

Correct Answer: B)

Sticking to trusted sources like BBC India and fact-checking viral claims

Question 4

How does the chapter describe lifelong learning through research?

- ☐ A) As something that stops after high school ends
- ☐ B) As a way to fuel curiosity and learn new skills or hobbies for free or low cost like ₹200 (approx. \$2.40)
- ☐ C) As a process that requires expensive courses worth ₹5,000 (approx. \$60)
- ☐ D) As unimportant compared to earning money immediately

Correct Answer: B)

As a way to fuel curiosity and learn new skills or hobbies for free or low cost like ₹200 (approx. \$2.40)
