

Chapter 2

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 2: Developing a Research Mindset

Activity 1: Curiosity Question Generator

Objective: To practice turning curiosity into specific, researchable questions. **Instructions:** Think about something you’ve wondered about recently—maybe a trending game like BGMI, a Bollywood movie, or a local issue like traffic jams. Write down three broad curiosities or wonders in the left column. Then, in the right column, rewrite each as a specific research question that you could investigate. Example: Broad Curiosity—“Why is gaming popular?” Specific Question—“How does playing BGMI for 2 hours daily impact teen sleep patterns in India?”

Broad Curiosity/Wonder	Specific Research Question
• 1.	
• 2.	
• 3.	

Broad Curiosity/Wonder

Specific Research Question

- 1.
- 2.
- 3.

Activity 2: Critical Thinking Challenge

Objective: To apply critical thinking by evaluating information for credibility. **Instructions:** Imagine you’re researching for a school debate on “Should social media be banned for teens under 16?” Below, you’ve found two pieces of information online. For each, write down two critical thinking questions to help decide if you should trust it. Then, note whether you think it’s likely reliable or unreliable and why. Example Question: “Who wrote this, and are they an expert?”

Info 1: A blog post titled “Social Media Ruins Lives!” with no author name or data, just personal rants.

- Critical Thinking Question 1: _____

- Critical Thinking Question 2: _____
- Reliable or Unreliable? Why? _____

Info 2: An article on a government health website citing a 2022 study showing 30% of teens report anxiety linked to social media use.

- Critical Thinking Question 1: _____
- Critical Thinking Question 2: _____
- Reliable or Unreliable? Why? _____

Activity 3: Reliable vs. Unreliable Source Hunt

Objective: To distinguish between reliable and unreliable sources for research. **Instructions:** Pick a topic you're interested in or studying, such as "Impact of Climate Change in India" or "Best Budget Phones Under ₹10,000 (approx. \$120)." Do a quick online search (or imagine you did) and list one reliable source and one unreliable source you might find. For each, explain why you think it's credible or not based on clues like author, evidence, or website type.

Topic Chosen: _____

Source Type	Source Description (e.g., website, blog)	Why Reliable or Unreliable?
Reliable Source		
Unreliable Source		

Source Type

Source Description (e.g., website, blog)

Why Reliable or Unreliable?

Reliable Source

Unreliable Source

Activity 4: Research Goals and Objectives Planner

Objective: To practice setting clear research goals and breaking them into actionable objectives. **Instructions:** Think of a small personal or school project, like "Finding the best earbuds under ₹2,000 (approx. \$24)" or "Preparing a history presentation on the Indian Freedom Struggle." Write one clear research goal (the big picture) and three specific objectives (small steps) to achieve it. Be precise about what you'll do. Example: Goal—"Find the best earbuds under ₹2,000." Objective 1—"Check top 5 earbuds on Amazon.in for ratings above 4 stars."

Research Topic/Project: _____

- **Research Goal:** _____
- **Objective 1:** _____
- **Objective 2:** _____
- **Objective 3:** _____

Reflection Corner: After completing this worksheet, write a short note (3-4 sentences) on what you learned about developing a research mindset from these activities. Which skill—curiosity, critical thinking, source evaluation, or goal-setting—do you think will help you most in school or personal life, and why?
