

Chapter 8

MCQs

Question 1

What is a key way to respect intellectual property and copyright laws when using someone else's work in your project, as discussed in the chapter?

- ☐ A) Using the content without giving any credit to the creator
- ☐ B) Copying large sections of text or media and claiming it as your own
- ☐ C) Citing the source or asking for permission before using the material
- ☐ D) Ignoring copyright rules since it's just for a school project

Correct Answer: C)

Citing the source or asking for permission before using the material

Question 2

What is an important ethical consideration when conducting surveys or collecting data for a school project, according to the chapter?

- ☐ A) Collecting data without telling participants the purpose of your research
- ☐ B) Sharing participants' personal information publicly to make your report detailed
- ☐ C) Getting informed consent and protecting participants' privacy
- ☐ D) Asking only personal and uncomfortable questions to get dramatic results

Correct Answer: C)

Getting informed consent and protecting participants' privacy

Question 3

How can you avoid fabrication and falsification of data in your research, based on the chapter's guidance?

- ☐ A) Making up results to make your project look more impressive
- ☐ B) Changing data to match what you hoped to find
- ☐ C) Reporting only the actual data you collected, even if it's not perfect
- ☐ D) Ignoring data that doesn't support your hypothesis

Correct Answer: C)

Reporting only the actual data you collected, even if it's not perfect

Question 4

Why is cultural sensitivity important in research, as explained in the chapter?

- ☐ A) It allows you to make assumptions and stereotypes about different groups
- ☐ B) It helps you respect diverse backgrounds and avoid offending others in your work
- ☐ C) It encourages you to ignore cultural differences for simplicity
- ☐ D) It is only necessary when researching your own culture

Correct Answer: B)

It helps you respect diverse backgrounds and avoid offending others in your work
