

Chapter 9

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet for Chapter 9: Presenting Research Findings

Activity 1: Structuring a Research Paper or Project

Objective: To practice organizing your research into a clear, logical structure. **Instructions:** Imagine you're writing a short paper on "Indian Street Games under ₹200 (approx. \$2.40)" for a ₹500 (approx. \$6) school project. Spend 10 minutes creating a basic outline by filling in the sections below. Include a catchy title, a brief intro idea, two body section headings with one key point each, and a conclusion idea. Then, answer the reflection question.

- **Title of Paper:** _____
- **Introduction Idea (2 sentences to hook the reader):**
- **Body Section 1 Heading:** _____
 - Key Point: _____
- **Body Section 2 Heading:** _____
 - Key Point: _____
- **Conclusion Idea (1-2 sentences to wrap up):**

Reflection: How does having a clear structure help you and your readers understand the topic better in a ₹1,000 (approx. \$12) project, and why is it worth the effort? (2 sentences)

Activity 2: Creating Effective Visual Aids (Charts, Graphs, Slides)

Objective: To design simple and impactful visuals to support your research findings. **Instructions:** Pretend you're preparing a presentation on "Teen Spending on Tech under ₹5,000 (approx. \$60)" for a ₹500 (approx. \$6) class assignment. Spend 10 minutes sketching or describing a visual aid (like a pie chart or slide) to show one key idea (e.g., "50% spend on earbuds"). Include labels or bullet points and note where you'd credit a source (e.g., "Source: TechTrendz.com"). Then, answer the reflection question.

- **Type of Visual Aid (chart/slide/etc.):** _____
- **Description or Sketch Idea (what it shows, labels, design):**
- **Source Credit (if applicable):** _____

Reflection: Why does a clear visual aid help explain your research more effectively in a ₹300 (approx. \$3.60) presentation, and how does it grab attention? (2 sentences)

Activity 3: Delivering Oral Presentations with Confidence

Objective: To build skills for speaking confidently about your research in front of others. **Instructions:** Imagine you're giving a 3-minute talk on "Indian Festivals under ₹1,000 (approx. \$12)" for a ₹500 (approx. \$6) grade.

Spend 10 minutes writing a short opening (2-3 sentences) to hook your audience and list 2 key points you'd cover. Note one way you'd practice or boost confidence (e.g., rehearse in mirror). Then, answer the reflection question.

- **Opening Hook (2-3 sentences):**
- **Key Points to Cover (2 points):**
 -
 -
- **Confidence-Boosting Strategy:** _____

Reflection: How does practicing or using a strategy help you feel less nervous during a ₹1,000 (approx. \$12) class presentation, and why is confidence important? (2 sentences)

Activity 4: Responding to Feedback and Questions

Objective: To practice handling feedback and questions with a positive and thoughtful attitude. **Instructions:** Pretend you've just presented on "Budget Gaming Gear under ₹2,000 (approx. \$24)" for a ₹500 (approx. \$6) project, and someone asks a question or gives feedback. Spend 10 minutes writing one possible question or critique you might receive (e.g., "Why no console options?") and a calm, honest response. Then, answer the reflection question.

- **Question or Critique:** _____
- **Your Response (2-3 sentences, stay positive):**

Reflection: Why is staying calm and open to feedback important for improving your ₹1,000 (approx. \$12) projects or presentations, and how does it help you grow? (2 sentences)

Reflection Corner: After completing this worksheet, write a short note (3-4 sentences) on what you learned about presenting research findings from these activities. Which concept—structuring a paper, creating visuals, delivering presentations, or handling feedback—do you think will help you most in school or personal projects like vlogging on "Budget Tech under ₹5,000 (approx. \$60)," and why?
