

## Chapter 2

### Worksheet

#### Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

#### Chapter 2: Everyday Sustainable Habits - Worksheet

**Instructions:** Dive into the following activities to explore and apply the sustainable habits from Chapter 2 in fun and creative ways. These tasks are designed to help you think about how small changes in your daily life can make a huge impact on the planet. Let's get started, eco-warriors!

##### Part 1: Sustainability Superhero Challenge

Imagine you're a sustainability superhero with a mission to save the planet through everyday habits. Pick a superhero name for yourself (e.g., "Eco Avenger" or "Green Guardian") and design a mini "mission plan" based on one idea from each section of Chapter 2. Be creative—think about how your superhero powers could inspire others!

- **Superhero Name:** \_\_\_\_\_
- **Mission 1: Reducing Waste at Home or School** What's one waste-reducing habit you'll champion (e.g., starting a "Trash-Free Tuesday" at school)? How will you use your superhero charm to get your family or friends on board?
- **Mission 2: Energy Conservation for Teens** What energy-saving trick will you promote (e.g., unplugging "vampire power" devices)? How will you make it cool for your squad to join in?
- **Mission 3: Water Conservation Techniques** What water-saving action will you lead (e.g., the 5-minute shower challenge)? What's a fun way to motivate others to save every drop?
- **Mission 4: Sustainable Food Choices** What eco-friendly food habit will you fight for (e.g., Meatless Monday with plant-based meals)? How will you convince your crew to try it out?

**Bonus:** Draw or describe your superhero logo or costume in the space below! Does it have a recycling symbol, a water drop, or a green cape?

##### Part 2: Eco-Influencer Vlog Script

Pretend you're a social media influencer with a huge following of teens. You're creating a short vlog (1-2 minutes) to share one sustainability tip from Chapter 2 that you think will go viral. Write a quick script for your video below. Make it trendy, relatable, and include a call-to-action with a hashtag!

- **Intro (Hook your audience!):** Start with a catchy line or question to grab attention (e.g., "Yo, wanna save the planet while looking cool AF?").
- **Main Tip (Share the habit!):** Pick one habit from any section of Chapter 2 (e.g., ditching plastic straws for reusable ones). Explain why it's awesome in a teen-friendly way.
- **Call-to-Action (Inspire action!):** End with a challenge for your followers to try the habit and share their progress with a unique hashtag (e.g., #StrawFreeSquad).

**Bonus:** What props or background would you use in your vlog to make it pop (e.g., showing off your reusable bottle with decals)?

### Part 3: Practical Challenge - Track Your Habits

Over the next week, pick **one habit** from each of the four sections below and track your progress. Write a quick note each day about how you practiced the habit (or if you forgot, why). At the end of the week, reflect on what was easy or hard.

- **Reducing Waste (e.g., using a reusable lunch container):** Day 1: \_\_\_\_\_ Day 2: \_\_\_\_\_  
Day 3: \_\_\_\_\_ Reflection: What was easy or hard about this habit? \_\_\_\_\_
- **Energy Conservation (e.g., turning off lights when leaving a room):** Day 1: \_\_\_\_\_  
Day 2: \_\_\_\_\_ Day 3: \_\_\_\_\_ Reflection: What was easy or hard about this habit? \_\_\_\_\_
- **Water Conservation (e.g., taking shorter showers):** Day 1: \_\_\_\_\_ Day 2: \_\_\_\_\_  
Day 3: \_\_\_\_\_ Reflection: What was easy or hard about this habit? \_\_\_\_\_
- **Sustainable Food Choices (e.g., reducing food waste with smaller portions):** Day 1: \_\_\_\_\_  
Day 2: \_\_\_\_\_ Day 3: \_\_\_\_\_ Reflection: What was easy or hard about this habit? \_\_\_\_\_

### Part 4: Creative Project - Design a Sustainability Campaign

Imagine you're starting a mini-campaign at your school to promote one sustainable habit from Chapter 2 (e.g., minimizing single-use plastics, saving energy, etc.). Answer the following to plan your campaign:

- What habit will you promote, and why?
- What's a catchy slogan for your campaign (e.g., "Tote-ally Plastic Free!")?
- Describe one activity or event to engage your peers (e.g., a challenge, workshop, or social media hashtag).
- How will you measure the success of your campaign (e.g., number of participants, amount of waste reduced)?

### Part 5: Fun Fact Sharing

Choose one fun fact from Chapter 2 that surprised or inspired you (e.g., "Saving water also saves energy since heating water uses power"). Write it below and explain why it stood out to you. Fun Fact:

\_\_\_\_\_  
\_\_\_\_\_  
Why it stood out: \_\_\_\_\_
