

Chapter 5

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Worksheet: Become a Green Career Trailblazer!

Instructions: Complete the tasks below using ideas from Chapter 5. Use colours, drawings, or stickers to make your worksheet stand out! Have fun while dreaming up ways to save the environment through an awesome career.

Task 1: Match the Green Job to Its Mission!

What to Do: Draw a line to connect each green career to its main purpose. Add a tiny doodle next to each job to show what it's about (like a solar panel, a tree, or a building).

Green Career	Main Purpose	Your Doodle
Renewable Energy Engineer	Designs solar panels and wind turbines for clean power	
Sustainable Architect	Creates eco-friendly buildings with less energy use	
Wildlife Conservationist	Protects endangered animals and their habitats	
Environmental Scientist	Studies nature to solve pollution and climate issues	

Green Career

Main Purpose

Your Doodle

- Renewable Energy Engineer
- Designs solar panels and wind turbines for clean power
- Sustainable Architect
- Creates eco-friendly buildings with less energy use
- Wildlife Conservationist
- Protects endangered animals and their habitats
- Environmental Scientist

Studies nature to solve pollution and climate issues

Task 2: Design Your Green Job Business Card!

What to Do: Pick a green career from Chapter 5 (or invent your own!) and create a mini business card in the box below. Include your name, job title (like “Eco-Fashion Designer”), a cool tagline (like “Styling a Sustainable Future”), and a small drawing or symbol for your job. Imagine handing this out at a sustainability fair!

Business Card Space:

Task 3: Plan Your First Green Career Step!

What to Do: Think about how you can start preparing for a green career right now as a teen (inspired by Chapter 5 pathways). Choose one action—like joining a science club, volunteering for a clean-up, or taking an online eco-course—and plan it out. Add a quick sketch of yourself taking this step!

- **My First Step:** _____ (What will you do?)
- **Where/How:** _____ (Where will you do it?)
- **Who Can Help:** _____ (A teacher, friend, or family?)
- **Why I’m Excited:** _____ (What motivates you?)

Sketch Yourself in Action: [Draw a quick image of yourself doing this step, like holding a sapling or using a laptop.]

Task 4: Create a Green Skill Superhero!

What to Do: Turn yourself into a superhero based on a skill needed for green careers (from Chapter 5, like data analysis, communication, or teamwork). Give yourself a superhero name (e.g., “Captain Communicator”), describe your “power” for helping the planet, and draw your superhero emblem or costume in the space below.

- **Superhero Name:** # _____
- **My Green Skill Power:** _____ (Example: “I use communication to convince everyone to recycle!”)

Draw Your Emblem/Costume: [Sketch a symbol or outfit for your superhero here, like a cape or logo.]

Task 5: Pitch Your Eco-Initiative Idea!

What to Do: Inspired by the young eco-innovators in Chapter 5 (like Prasiddhi Singh or Ridhiima Pandey), come up with a small eco-initiative or business you could start as a teen. Write a short “pitch” (2-3 sentences) to convince your classmates to join you. Add a catchy name for your idea!

- **Initiative Name:** _____ (Make it cool!)
- **My Pitch:**

Task 6: Dream Up Your Ultimate Green Workplace!

What to Do: Imagine your dream green job workplace 10 years from now. Are you in a forest lab studying wildlife, a high-tech office designing solar tech, or a coastal area cleaning oceans? Describe it in a few words and draw a quick scene of your workplace with you in it.

- **My Dream Workplace:** _____ (Example: “A solar farm in Rajasthan with shiny panels everywhere!”)

Draw Your Workplace Scene: [Sketch yourself working in this cool place—add details like trees, tech, or animals.]

Task 7: Build Your Green Career Motivation Board!

What to Do: Create a mini motivation board to keep you inspired for a green career. List 3 reasons why you want to work in a sustainability field (personal reasons from your heart). Then, add a hashtag that represents your eco-dreams to share on social media!

- Reason 1: _____
- Reason 2: _____
- Reason 3: _____
- My Motivation Hashtag: # _____
