

Chapter 7

MCQs

Question 1

What is a key difference between a growth mindset and a fixed mindset when facing a challenge?

- A) A growth mindset avoids challenges to protect self-image, while a fixed mindset embraces them.
- B) A growth mindset sees challenges as opportunities to learn, while a fixed mindset views them as proof of inability.
- C) A growth mindset believes effort is unnecessary, while a fixed mindset focuses on hard work.
- D) A growth mindset ignores feedback, while a fixed mindset seeks it constantly. Correct Answer: B) A growth mindset sees challenges as opportunities to learn, while a fixed mindset views them as proof of inability.

Note: No correct answer specified for this question

Question 2

How can mental toughness help a student achieve a difficult goal like improving grades?

- A) It encourages giving up when tasks feel too hard to avoid stress.
- B) It helps the student stay committed and push through frustration by focusing on small steps and their 'why.'
- C) It ensures the student never feels tired or unmotivated while studying.
- D) It replaces the need for planning or breaking goals into smaller tasks. Correct Answer: B) It helps the student stay committed and push through frustration by focusing on small steps and their 'why.'

Note: No correct answer specified for this question

Question 3

What is the main purpose of using positive self-talk when working toward a goal?

- A) To ignore challenges and pretend everything is easy.
- B) To replace negative thoughts with encouraging, realistic statements that boost confidence.
- C) To avoid setting goals by focusing only on feelings.
- D) To criticize past mistakes in a constructive way. Correct Answer: B) To replace negative thoughts with encouraging, realistic statements that boost confidence.

Note: No correct answer specified for this question

Question 4

How does visualization help in achieving a goal, such as performing well in a school play?

- A) It guarantees success without any real practice or preparation.
- B) It allows you to mentally rehearse success in detail, building confidence and focus before the actual event.
- C) It distracts you from the goal by focusing on unrelated daydreams.
- D) It replaces the need for setting specific goals or taking action. Correct Answer: B) It allows you to mentally rehearse success in detail, building confidence and focus before the actual event.

Note: No correct answer specified for this question

Question 5

What is one way mindfulness can support goal achievement for a high school student?

- A) It helps eliminate all distractions permanently without any effort.
 - B) It encourages multitasking to complete goals faster.
 - C) It helps the student stay present and reduce anxiety, making it easier to concentrate on goal tasks.
 - D) It focuses only on past mistakes to avoid repeating them.
- Correct Answer: C) It helps the student stay present and reduce anxiety, making it easier to concentrate on goal tasks.
