

Chapter 8

Worksheet

Instructions:

Please complete all activities in this worksheet. Write your answers in the spaces provided or on separate sheets if needed.

Chapter 8: Financial Literacy and Goal Setting Worksheet

Purpose: This worksheet is designed to help students apply the concepts of financial literacy and goal setting from Chapter 8 through practical exercises, reflection, and critical thinking. It covers money management, financial responsibility in professional life, and setting SMART goals for long-term success. Students can complete this individually or in groups as part of class activities or homework.

Section 1: Basics of Money Management

Objective: Practice budgeting, saving, and spending wisely to build foundational financial skills for independent living.

Activity 1: Build Your First Budget

Using the 50/30/20 rule (50% needs, 30% wants, 20% savings), create a monthly budget based on a hypothetical income of \$300 (₹24,000). List at least 3 expenses under each category. Calculate the amounts for needs, wants, and savings.

- **Total Monthly Income:** \$300 (₹24,000)
- **Needs (50% = \$150 / ₹12,000):**
 - _____ \$_____ (₹_____)
 - _____ \$_____ (₹_____)
 - _____ \$_____ (₹_____)
- **Wants (30% = \$90 / ₹7,200):**
 - _____ \$_____ (₹_____)
 - _____ \$_____ (₹_____)
 - _____ \$_____ (₹_____)
- **Savings (20% = \$60 / ₹4,800):** Goal (e.g., emergency fund): _____ \$_____ (₹_____)

Reflection Question: What was the hardest part about sticking to the 50/30/20 rule? How can you adjust if your real income is lower?

Activity 2: Savings Sprint Challenge

Set a small savings goal for the next 2 weeks. Identify one expense you can cut to save money and track your progress.

- **Savings Goal (e.g., \$10 / ₹800 for a movie ticket):** _____
- **Amount to Save Weekly:** \$_____ (₹_____)

- **Expense to Cut (e.g., daily snacks):** _____
- **Estimated Savings from Cutting Expense:** \$ _____ (₹ _____)
- **Progress After Week 1:** Saved \$ _____ (₹ _____) / Notes: _____
- **Progress After Week 2:** Saved \$ _____ (₹ _____) / Notes: _____

Reflection Question: How did it feel to save instead of spend? What motivated you to keep going?

Activity 3: Spending Smarts Log

Track your spending for 3 days. Categorize each purchase as a “Need” or “Want.” Identify one “Want” you could skip next time to save money.

Day	Item Purchased	Cost \$ (₹)	Need or Want?	Could Skip? (Y/N)
1				
2				
3				

Day

Item Purchased

Cost \$ (₹)

Need or Want?

Could Skip? (Y/N)

1

2

3

Reflection Question: What did you learn about your spending habits? How much could you save by skipping one “Want” next time?

Section 2: Financial Responsibility in Professional Life

Objective: Develop skills in ethical money handling and accountability for professional settings.

Activity 4: Ethical Decision-Making Scenario

Read the scenario below and answer the questions to practice ethical money handling.

Scenario: You’re working as a cashier at a local store. A customer pays for a \$5 (₹400) item with a \$20 (₹1,600) bill but doesn’t notice you gave them only \$5 (₹400) in change instead of \$15 (₹1,200). They leave the store quickly.

- What is the ethical thing to do in this situation?
- What could happen if you keep the extra money?
- How would you explain this mistake to your manager if the customer returns?

Reflection Question: Why is honesty important in professional settings, even for small amounts?

Activity 5: Accountability Action Plan

Imagine you overspent a \$50 (₹4,000) budget for a school club event by \$10 (₹800). Write a short plan to show accountability.

- **Admit the Mistake (what will you say to the club advisor?):**
- **Propose a Solution (how will you cover the extra cost or fix it?):**

Reflection Question: How does owning up to mistakes build trust with others?

Section 3: Setting SMART Goals for Long-Term Success

Objective: Create actionable SMART goals to plan for career, education, or personal growth after high school.

Activity 6: Craft Your SMART Goal

Pick one area (career, education, or personal growth) and create a SMART goal. Ensure it meets all five criteria: Specific, Measurable, Achievable, Relevant, Time-bound.

- **Area Chosen (e.g., education):** _____
- **Dream or Idea (e.g., improve grades):** _____
- **SMART Goal Statement:**
- **Check the SMART Criteria:**
 - Specific (What exactly?): _____
 - Measurable (How much/how many?): _____
 - Achievable (Is it realistic?): _____
 - Relevant (Why does it matter?): _____
 - Time-bound (By when?): _____
- **Mini-Steps to Achieve It (list 3 actions with deadlines):**
 - _____ (Deadline: _____)
 - _____ (Deadline: _____)
 - _____ (Deadline: _____)

Reflection Question: How does making your goal SMART make it easier to achieve compared to a vague idea?

Activity 7: Future Vision Board Sketch

Sketch or describe a small vision board for your future. Include at least 3 images or symbols representing your goals (e.g., a graduation cap for college) and write a mini SMART goal for one of them.

- **Vision Board Elements (describe or draw 3 symbols):**
 - _____ (What it represents: _____)
 - _____ (What it represents: _____)
 - _____ (What it represents: _____)
- **SMART Goal for One Element:**

Reflection Question: How does visualizing your goals motivate you to take action?

Overall Reflection

Answer the following questions after completing all activities to reflect on your learning from Chapter 8.

- What is one money management tip (budgeting, saving, or spending) you'll start using this week, and why?
- How will you ensure you stay ethical and accountable with money in a future job or group project?
- What's one SMART goal you're excited to work on, and what's the first step you'll take?
